

Every 21 minutes another child is diagnosed with autism.

Please help me fight this disturbing trend. Participate in WALK NOW Seattle in October 2008 to further Cure Autism Now's mission to find the causes, effective treatments and a cure for autism. My daughter is autistic and the both of us endured, survived, and are still trying to overcome.

October 4, 2008 – University of Washington
Team 7 – Captain Stella Podgornik
